

Formal Wear Father's Day Card

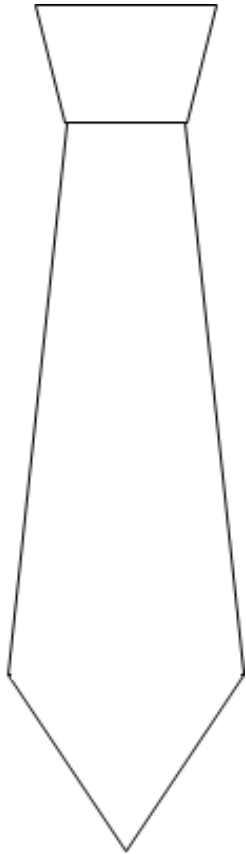

15 June 2014 is Father's Day. Even if your dad is not a shirt-and-tie kind of guy, he'll probably still love this cute card!

This activity will allow your child to:

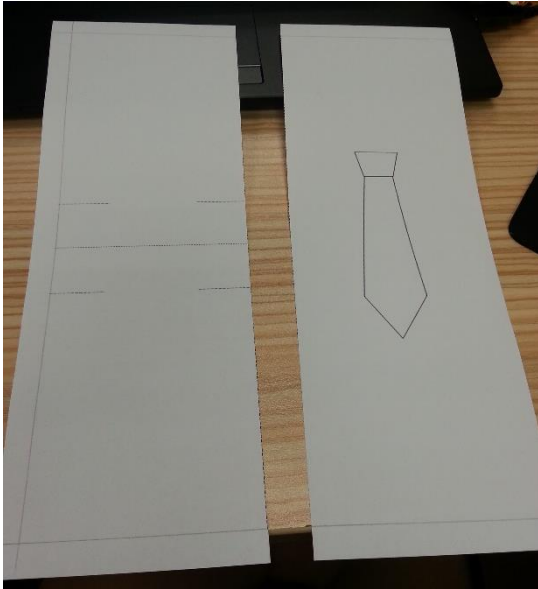

- Perform simple fine motor skills like cutting straight lines, folding, gluing, writing, drawing, etc.
- Express creativity by decorating the card as desired
- Express ideas through writing

Print card template on page 2 on thick paper and follow the instructions on pages 3&4 to create the card!

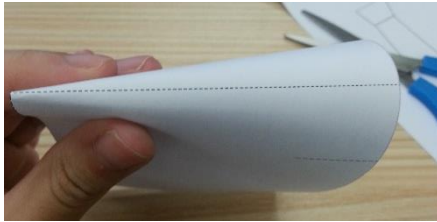

Cut the printed template into half, along the dotted lines.

Remove the border and fold along the dotted line as shown in the picture

Cut the dotted horizontal slits and fold over the 2 flaps as shown.

Decorate the shirt and the tie. Glue the collar down with the tie between them. You might want to add buttons to the collar as well.

Once the glue has dried, lift the bottom front of the card and write a Father's Day greeting inside.
